

Expanded PTFE Valve Stem Packing

PTFE STEM PACKING

100% Expanded PTFE
Or
PTFE/Graphite Blend

Material	Diameter	Length	Bulk
100% PTFE	1/16"	50'	
	3/32"	20', 50'	2,500'
	1/8"	25'	
	5/32"	15', 25', 35'	1,500'
	3/16"	25'	
	7/32"	15', 25'	750'
	1/4"	12'	
	9/32"	9'	450'
	5/16"	7'	
	3/8"	7'	
Graphite Blend	3/32"	2' cut	

Consult factory for other diameters and/or lengths

SUPERIOR FEATURES:

- TFCO Stem Packing is extruded eliminating the leak path potential allowed by conventional spiral tape wrapping
- TFCO Stem Packing is slightly expanded allowing greater compressibility under lighter compression loads.
- TFCO Stem Packing is manufactured from 100% PTFE resin or PTFE/Graphite blend with no other fillers, binders or additives.
- Inert to all common chemicals, Temperatures to +500 F and pressures to 500 PSI.
- All TFCO products are manufactured in the USA

ROLL SIZES:

- 100% PTFE Stem Packing is supplied on plastic spools with shells and labeled with one sticker indicating diameter & length.
- Bulk rolls are supplied on universal spools
- Cut lengths are supplied in plastic bags containing 100 pcs each.

APPLICATIONS:

TFCO form-in-place Stem Packing is ideal for a wide variety of sealing applications, including:

- Valve and Faucet Stems
- Rotating Shafts
- Reciprocating Plungers
- Stuffing Boxes
